(The landfill has been in operation since about 1880. There are no dwelling houses within a mile of the landfill. There are two monitoring wells, and reports are sent to the New Jersey DEP, Solid Waste Administration every three months. The very low BOD₅ content of the well water indicates that leaching of K083 is unlikely.)

For other persons providing notification, the signature is optional. Check the boxes which best describe the relationship to the site of the person required to notify.
